Voice of Leader

You speak. Every supervisor and operator hears it live. Nobody touches a phone.

One voice. Every shift, every line.

Your plant hears you live, wherever they are: on the shop floor, in stores or at the gate. Their phone plays your voice automatically, with no tap, even when locked.

You will also know who heard it, and who didn't.

For plant heads, operations and safety teams

Everything your plant needs to reach every team member

One app for the plant head and shift in-charge. One app for supervisors, operators, maintenance and security. Built for the moments when a call must not be missed.

1 **Groups and subgroups**
Create the whole plant, then shifts and departments: production, maintenance, quality, stores, security. Staff join the group they belong to with your plant code, and you approve each one.

2 **Normal live voice**
Pick one group or many, tap the mic and speak. Staff hear you live, wherever they are. Their phone plays it automatically: no tap, no opening the app, even when locked.

3 **Emergency voice**
For fire, gas leaks, evacuation and line-stop calls. It plays with an alert that stands out from routine notices.

4 **Who got the alert, who heard**
A live view shows Waiting, Alerted, Heard and Failed for every staff member. When a phone cannot play, it tells you why: silent mode, notifications off, no network.

5 **Offline and missed**
A staff member who was offline can replay the announcement from the history list when back online. You can resend to the ones who missed it, or share the recording on WhatsApp.

6 **Private and on record**
Only approved staff can listen. Each announcement is logged with time, length and groups reached, useful for safety and audit records.

Six real moments. Pick the line or shift, speak live, and the phone plays it by itself. Your delivery view shows who heard it.

CRITICAL SAFETY

Gas leak in Plant 2

Admin says, live

"Emergency. Ammonia leak in Plant 2. Shut off feeder lines and evacuate immediately to Assembly Point B via the North exit."

Reaches: all plant staff, as an emergency alert.
You see: who heard it, who is offline, and who to call.

PRODUCTIVITY

Line 3 conveyor trip

Admin says, live

"Line 3 main conveyor has tripped. Duty electrical and mechanical teams, report to the Line 3 drive unit now."

Reaches: the Maintenance group only. Other lines are not disturbed.
You see: who has heard it, and who is on the way.

SAFETY

Line 4 restart warning

Admin says, live

"Attention Line 4. Main breaker re-energizing in 30 seconds. Clear all guards, pinch points and rollers now."

Reaches: Line 4 operators and technicians.
You see: a record of who was alerted and who heard it.

QUALITY

Immediate batch hold

Admin says, live

"Quality hold. Halt packing on Line 1. Hold pallet 3 and quarantine Batch 502 for QA inspection."

Reaches: Line 1 packing and warehouse staging.
You see: that the hold reached the floor team at once.

LOGISTICS

Raw material at Gate 2

Admin says, live

"Raw material truck at Gate 2. Forklift team and Stores, start unloading now."

Reaches: Stores and Gate security.
You see: who heard it, and who to resend to.

FLOOR SAFETY

Oil spill in Aisle 4

Admin says, live

"Stores and aisle supervisors, oil spill and rack damage in Aisle 4. Restrict all forklift traffic there until cleared."

Reaches: Stores, forklift operators and Housekeeping.
You see: only the affected teams alerted. Other zones keep working.

Start in three steps

1. **We set up your plant**
   You get a plant code, and your groups: shifts, departments, lines and security.

2. **Staff join, you approve**
   Staff install VoL, enter the plant code and choose their shift or department. Only approved staff can listen.

3. **Tap the mic and speak**
   Pick the groups and talk. Staff hear you live, anywhere, and the phone plays it by itself. You see who heard.
