Voice of Leader

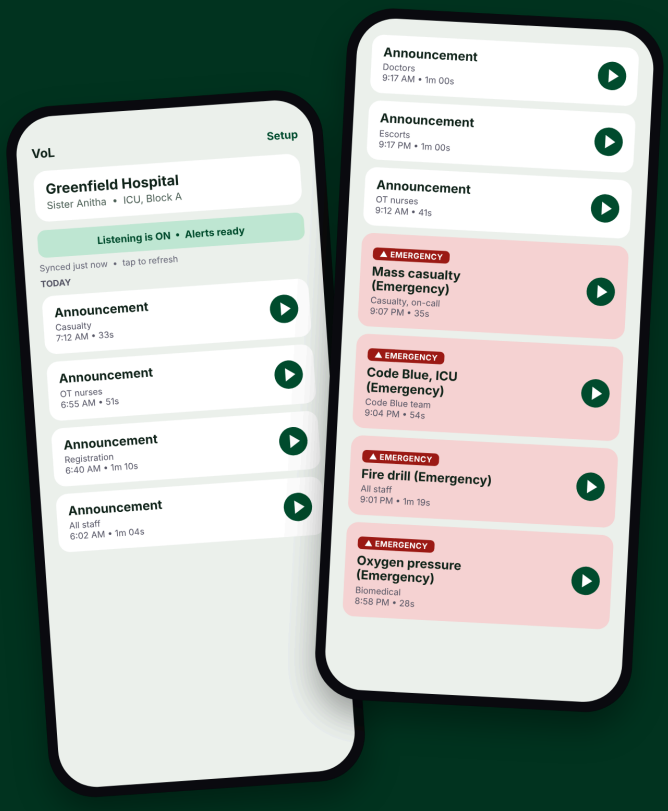

Hospital admin speaks. Every doctor, nurse and technician hears it live, without touching a phone.

One voice. Every block, every floor.

Your team hears you live, wherever they are: in any block or on any floor, in the hostel or in the staff quarters. Their phone plays your voice automatically, with no tap, even when locked.

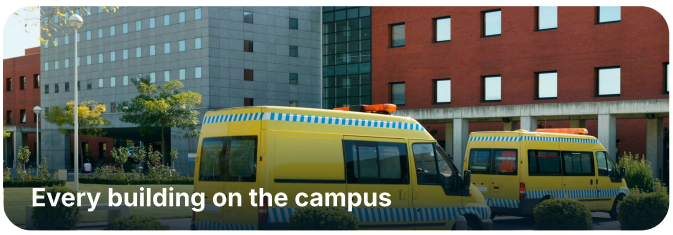

You will also know who heard it, and who didn't.

For hospital administration, nursing and operations teams

Everything a hospital needs to reach every team member

One app for the superintendent and duty officers. One app for doctors, nurses, technicians and support staff across blocks, the hostel and staff quarters. Built for busy OPD days and for emergencies.

1 **Groups and subgroups**
Create the whole hospital, then blocks, departments and shifts: casualty, ICU, OT, wards, laboratory, pharmacy, registration, biomedical, hostel and staff quarters. Staff join the group they belong to with your hospital code, and you approve each one.

2 **Normal live voice**
Pick one group or many, tap the mic and speak. Staff hear you live, wherever they are. Their phone plays it automatically: no tap, no opening the app, even when locked.

3 **Emergency voice**
For emergencies like Code Blue, mass casualty, fire and power failure. It plays with an alert that stands out from routine notices.

4 **Who got the alert, who heard**
A live view shows Waiting, Alerted, Heard and Failed for every staff member. When a phone cannot play, it tells you why: silent mode, notifications off, no network.

5 **Offline and missed**
A staff member who was offline can replay the announcement from the history list when back online. You can resend to the ones who missed it, or share the recording on WhatsApp.

6 **Private and on record**
Only approved staff can listen. Each announcement is logged with time, length and groups reached. Keep patient names out of voice announcements.

When this happens in the hospital, you speak

Six real moments. Pick the block, department or shift, speak live, and the phone plays it by itself. Your delivery view shows who heard it.

MASS CASUALTY

Road accident, many patients

Admin says, live

"Emergency. Eight road accident patients arriving at Casualty in ten minutes. Trauma team, surgeons and blood bank, report now."

Reaches: on-call doctors, the Casualty team and the blood bank, including the hostel and quarters, as an emergency alert.
You see: who heard it, and who to phone.

CODE BLUE

Code Blue in ICU

Admin says, live

"Code Blue. ICU, Bed 12. Code Blue team, report now."

Reaches: the Code Blue team and ICU staff, as an emergency alert.
You see: who has heard it, and who is on the way.

THEATRE FLOW

Theatre 3 is ready

Admin says, live

"Theatre 3 is ready. Floor 2 nurses, send the next patient to Pre-Op now."

Reaches: Floor 2 ward nurses, escorts and Pre-Op.
You see: that the right floor heard it, with no call to each ward.

CALL BACK

Staff in hostel and quarters

Admin says, live

"Night-shift ICU nurses and resident doctors in the hostel and Block B quarters, report to the ICU within 15 minutes."

Reaches: the Hostel and Staff quarters groups, ICU nurses and residents.
You see: who has heard it, wherever they are.

OPD FLOW

OPD rush

Admin says, live

"OPD is crowded. Registration team, open counters 5 to 8 now."

Reaches: Registration and OPD staff.
You see: who heard it, and who to resend to.

EQUIPMENT ALERT

Oxygen pressure drop in Block A

Admin says, live

"Warning. Oxygen supply pressure has dropped in Block A. Biomedical and engineering teams, check the plant room now."

Reaches: Biomedical engineers and ICU nursing supervisors.
You see: both teams alerted together.

Start in three steps

1. **We set up your hospital**
   You get a hospital code, and your groups: blocks, departments, shifts, hostel and staff quarters.

2. **Staff join, you approve**
   Staff install VoL, enter the hospital code and choose their department or residence group. Only approved staff can listen.

3. **Tap the mic and speak**
   Pick the groups and talk. Staff hear you live, anywhere, and the phone plays it by itself. You see who heard.
