Voice of Leader

The principal speaks. Every teacher, driver, student and parent hears it live. Nobody touches a phone.

One voice. Every classroom, hostel and bus route.

Teachers, faculty, students and parents hear you live, wherever they are: on campus, in the hostel, at home or on the road. Their phone plays your voice automatically, with no tap, even when locked.

You will also know who heard it, and who didn't.

For school and college management and operations teams

Reach every student, parent and staff member

One app for the principal and office team. One app for teachers, faculty, drivers, students and parents. Built for the moments when a message must not be missed.

1 **Groups and subgroups**
Create the whole campus, then classes and sections, college departments and years, hostels, bus routes and staff. Students, parents and staff join the group they belong to with your campus code, and you approve each one.

2 **Normal live voice**
Pick one group or many, tap the mic and speak. Students, parents and staff hear you live, wherever they are. Their phone plays it automatically: no tap, no opening the app, even when locked.

3 **Emergency voice**
For lockdowns, severe weather and fire drills. It plays with an alert that stands out from routine notices.

4 **Who got the alert, who heard**
A live view shows Waiting, Alerted, Heard and Failed for every student, parent and staff member. When a phone cannot play, it tells you why: silent mode, notifications off, no network.

5 **Offline and missed**
A student, parent or teacher who was offline can replay the announcement from the history list when back online. You can resend to the ones who missed it, or share the recording on WhatsApp.

6 **Private and on record**
Only approved students, parents and staff can listen. Each announcement is logged with time, length and groups reached.
